

**Cocalico School District**  
**Year-at-a-Glance - Curriculum Overview**

**Department: Family & Consumer Sciences Course: Child Development**

**Grade Level: 9-12**

**Big Ideas**

- It is important to understand what the subject of Child Development entails.
- Understanding prenatal development, labor, birth, and postpartum prepares one for the birthing process.
- Having a better knowledge of the birthing process and what it entails will prepare one for what to expect.
- Establishing age-appropriate activities to aid in the development of infants and toddlers help provide them with an educational experience.
- It is important to provide age-appropriate activities and experiences for young children that will assist their growth in all areas of development.
- Learning how to work with children in a classroom setting, using various resources and activities, will prepare students for working with children.

### Eagle P.A.C.T. Course Connections:

When learning about children, students need to know how to make sound judgement based on relevant information to solve an authentic problem. Child Development has topics with diverse views that will require students to be understanding and have an open mind.
